Discussion Forums

A Discussion Forum is provided to facilitate discussion and sharing of information among the community of users. One purpose of this site is to provide a forum for posting questions, comments, and information pertaining to specifications. This is possible through the Discussion Forum.

The Discussion Forum capabilities are explained through the following images.

The screenshot shows a forum interface with the following elements:

- Breadcrumbs: Home » Forums » Warranty Spec for Erosion Control
- Welcome message: Welcome, Guest.
- Topic summary: 3 messages in 1 topic. Last post: 1 hour ago.
- User options: Log-In / Register and Guest Settings.
- Navigation buttons: Post New Topic, Search Forum, and Back to Forum List.
- Page indicator: 1 page in this forum [1]
- Topic list table:

 [Erosion Control.doc \(35.5K\)](#)

Attached is a special provision describing a warranty spec being used on three contracts by the Indiana Department of Transportation. The warranty period is a minimum of two years and requires a bond. It contains requirements for vegetation coverage, eroded areas, dispute resolution, and pay items.

This looks like a great specification. We need to disseminate this to the rest of the NPA's.
